

Fred Meijer White Pine Trail State Park Sand Lake to Stanwood

The 20.5-mile section of trail from Sand Lake to Stanwood is now paved, including a new bridge over Handy Creek between M-46 and Yankee Road. Ride through shady woodlands, peaceful farm country and the rural villages of Pierson, Howard City, Morley and Stanwood. Now is a great time to explore this new section of trail and zoom along on the smooth new asphalt surface.

The section of trail through Howard City was also repaved, and includes a connector path to local businesses west of the staging area. The Howard City Staging Area offers plenty of parking and is close to several stores, restaurants and ice cream shops. In Morley, you'll cross a bridge spanning the Little Muskegon River. Look east to see the Morley Dam and Morley Pond. You'll also find restaurants and ice cream in this quaint village.
