

Grand River Greenway Trails Network

When you visit the tri-cities area, you'll find an extensive network of paved paths and bike routes connecting the area's beaches, bayous, lakes, rivers, parks, and local attractions. In Grand Haven, you'll find easy access to the **Grand Haven Waterfront Trail** at Grand Haven State Park and several public parking areas all along the waterfront.

Lakeside Trail

When you cross over the north side of the US-31 drawbridge, the trail system connects with the 15-mile Lakeside Trail, which encircles Spring Lake through the communities of Ferrysburg, Fruitport and Village of Spring Lake. Trails in the Village of Spring Lake also lead to the new North Bank Trail and the Grand River Greenway Trail with views of the Grand River.

North Bank Trail

The 5.2-mile North Bank Trail begins at Central Park and travels east through a scenic landscape of blueberry fields, woodlands and marshes to a new trailhead in downtown Nunica, where it now connects with the Spoonville Trail.

Spoonville Trail

Named after a ghost town that once stood at the mouth of Crockery Creek on the Grand River, the 3.5-mile Spoonville Trail was completed 2020, including a new trailhead on 120th Avenue. The Spoonville Trail crosses over the Sgt. Henry E. Plant Memorial Bridge, creating an important connection between the North Bank Trail and Idema Explorers Trail.

Idema Explorers Trail

Brainchild of Ottawa County Parks, the Idema Explorers Trail has been built in several phases, and will eventually stretch 30 miles connecting Grand Haven to Grand Rapids. The first 3.9 miles of the Idema Explorers Trail from Conner Bayou to Riverside Park was completed in 2018. Over the past few years, a 6-mile section was completed between Grand River Park and GVSU, plus a 3.32-mile section in Jenison. The section between Grand River Park and Dog Park is very scenic. The newest 2 miles of trail, from Conner Bayou to 144th Avenue, was completed in 2024, creating an important link in this extensive regional network of trails.
