

Top of Michigan Trails Network

Travel up north to the “tip of the mitt” and explore a growing network of over 400 miles of nonmotorized hiking, biking, cross country skiing and water trails.

The Top of Michigan Trails Network is one of America’s top destinations for multiday biking or paddlesport adventures with ample lodging, camping and amenities located on or near most of the trails. This includes an extensive network of rail-trails built on the remnants of several major railways that once brought travelers to Northern Michigan’s

vacation wonderland and hauled freight to be ferried across the Straits of Mackinaw.

This expansive network of trails spans the top of the mitten from Little Traverse Bay to Thunder Bay. Enjoy a peaceful, quiet journey rambling along serene stretches of state forest, rolling farmland, rivers, wetlands and the shorelines of Lake Huron, Lake Michigan and several inland lakes.

The Top of Michigan Trails Council was responsible for gathering public support and working with the Michigan DNR to develop these trails over the past two decades. Their visitors center is located at the intersection of the Little Traverse Wheelway and the North Western State Trail near Petoskey.

Ride along the edge of Lake Huron on the Huron Sunrise Trail near Rogers City.
